### RELATED EXPERIENCE

#### J.Crew

##### FULL STACK ENGINEER, FEB 2018 - PRESENT

- Worked on J.Crew's e-commerce platform which serves 69 million users per year
- Created and maintained the automation testing environment utilizing Selenium and Jest. I coupled the framework with a UI designed and created with React, Redux, Node, shell scripts and Docker for QA utilization
- Created a parameterized cron Jenkins pipeline for automation testing to run on an agent machine set up to handle cross-browser testing
- Created several other internal tools - including a release tool - saving J.Crew \$250K+ per year

#### New York Methodist Hospital

##### TIME KEEPING COORDINATOR, DEC 2014 - FEB 2015

- Facilitated the implementation of the Kronos timekeeping system while managing a team of specialists to ensure entry of all 4K+ NYM personnel
- Generated specialized reports utilizing advanced excel as well as queries and data analysis from the Kronos workforce system

#### Pension Partners LLC

##### RESEARCH & MARKETING ASSOCIATE, MAR 2012 - JUN 2013

- Spearheaded marketing initiative for launch of newly established mutual fund, playing central role in helping fund reach +\$130M in AUM within first year
- Performed search engine optimization duties while overseeing the creation of new web presences; including, websites, social media pages, RSS feeds, etc.
- Implemented Salesforce CRM and performed advanced Excel functions - VLOOKUP, macros, and Index Match - to organize, store, and clean client data.

#### AppNexus

##### DOMAIN QUALITY AUDITOR, FEB 2012 - JAN 2014

- Responsible for auditing domain URL's serving through the AppNexus platform - utilizing an internal auditing tool - based on technical attributes; category; and certain rules and regulations.
- Collaborate with teammates to resolve discrepancies that arise during the audit process in a constructive, educational manner.
- Evaluate and update standards for which domains can be approved for clientele and affiliates.

### EDUCATION

#### App Academy

##### FULL-TIME SOFTWARE ENGINEERING TRACK

1000-hour immersive full-stack web development intensive with <3% acceptance rate, which emphasizes coding style, pair programming, and best practices.

#### Stony Brook University

##### B.A. ECONOMICS/PRE-MEDICINE

Major GPA: 3.4, Dean's List

### HOBBIES & INTERESTS

Woodworking, technology, science, bodybuilding, reading, music, cooking, New York Jets
